

RAPID™ Business Improvement

RAPID™ is an extremely cost-effective approach for unleashing the true potential of your business.

We cut through the 'noise' and complexity of everyday business and you deliver fast and quantifiable improvements.

The process can fit organisations of any size (from two employees to multi-nationals) in either the public or private sectors.

It is a process that encapsulates best practice drawn from world-class businesses - all integrated into one simple, easy to use system.

Key Features

Comprehensive Business Management Model to display, measure and manage Continuous Improvement across all areas of the business.

Clearly Defined Future for all key areas that drive successful performance.

Greater Confidence in the achievement of a step-change in your business.

Quality Approaches such as European Excellence, ISO, Investors in People, Balanced Scorecards, Lean Thinking and Six Sigma are encompassed and simplified.

Quality Tools and Techniques such as Problem Solving, Process Improvement, Management Planning, Statistical Tools, Facilitation Skills and Benchmarking are fully integrated into the Management Process.

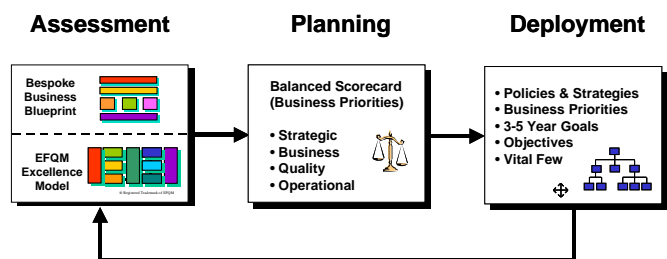

Standardised data collection, diagnosis and reporting formats are used.

Integrated Project Management controls all projects irrespective of size or complexity.

Breakthrough and Continuous Improvement activities are measured in a Balanced Scorecard of financial and non-financial indicators.

Cause and Effect Relationships are identified for driving culture change.
